

We're Afraid of Everything,

Darling

For Arch

100 x Coral balloons

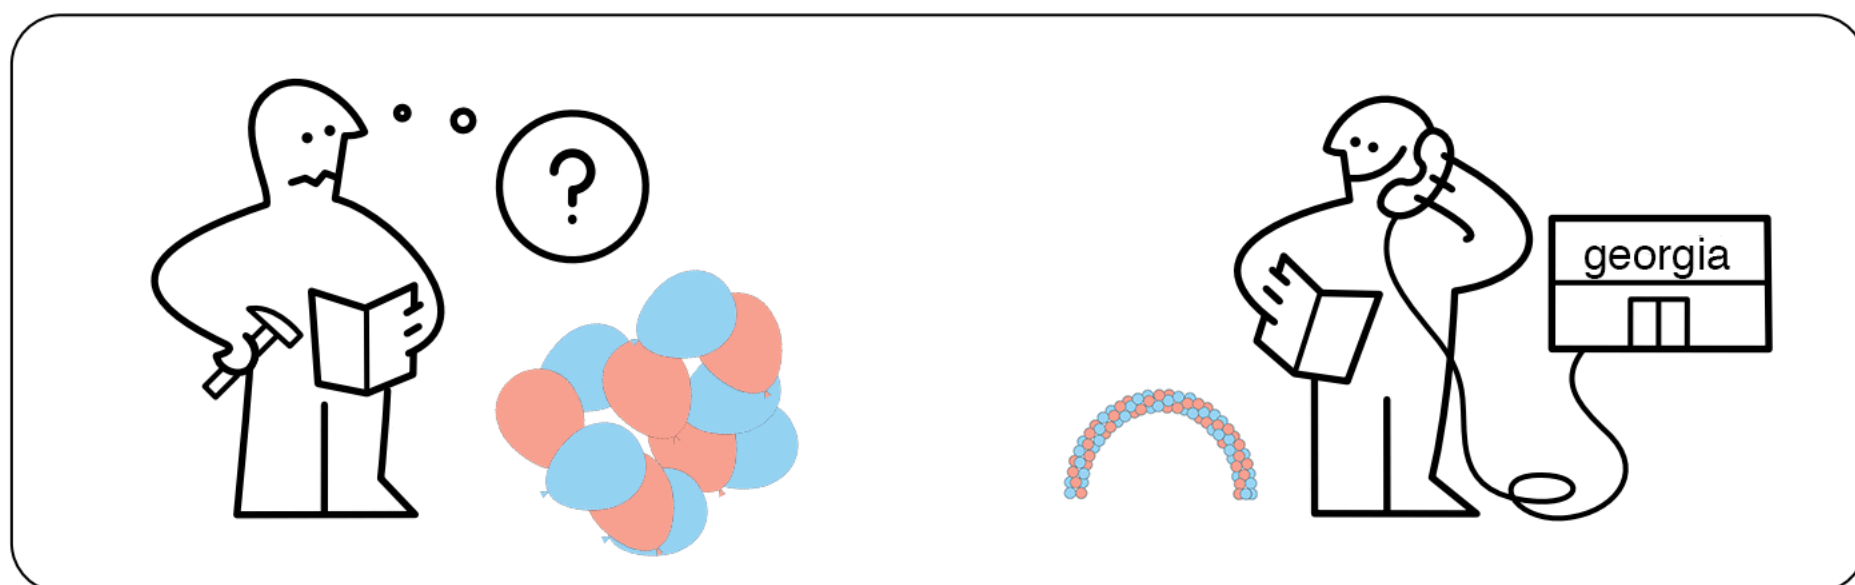

100 x Blue balloons

1 x Balloon arch frame

50 x Balloon connectors

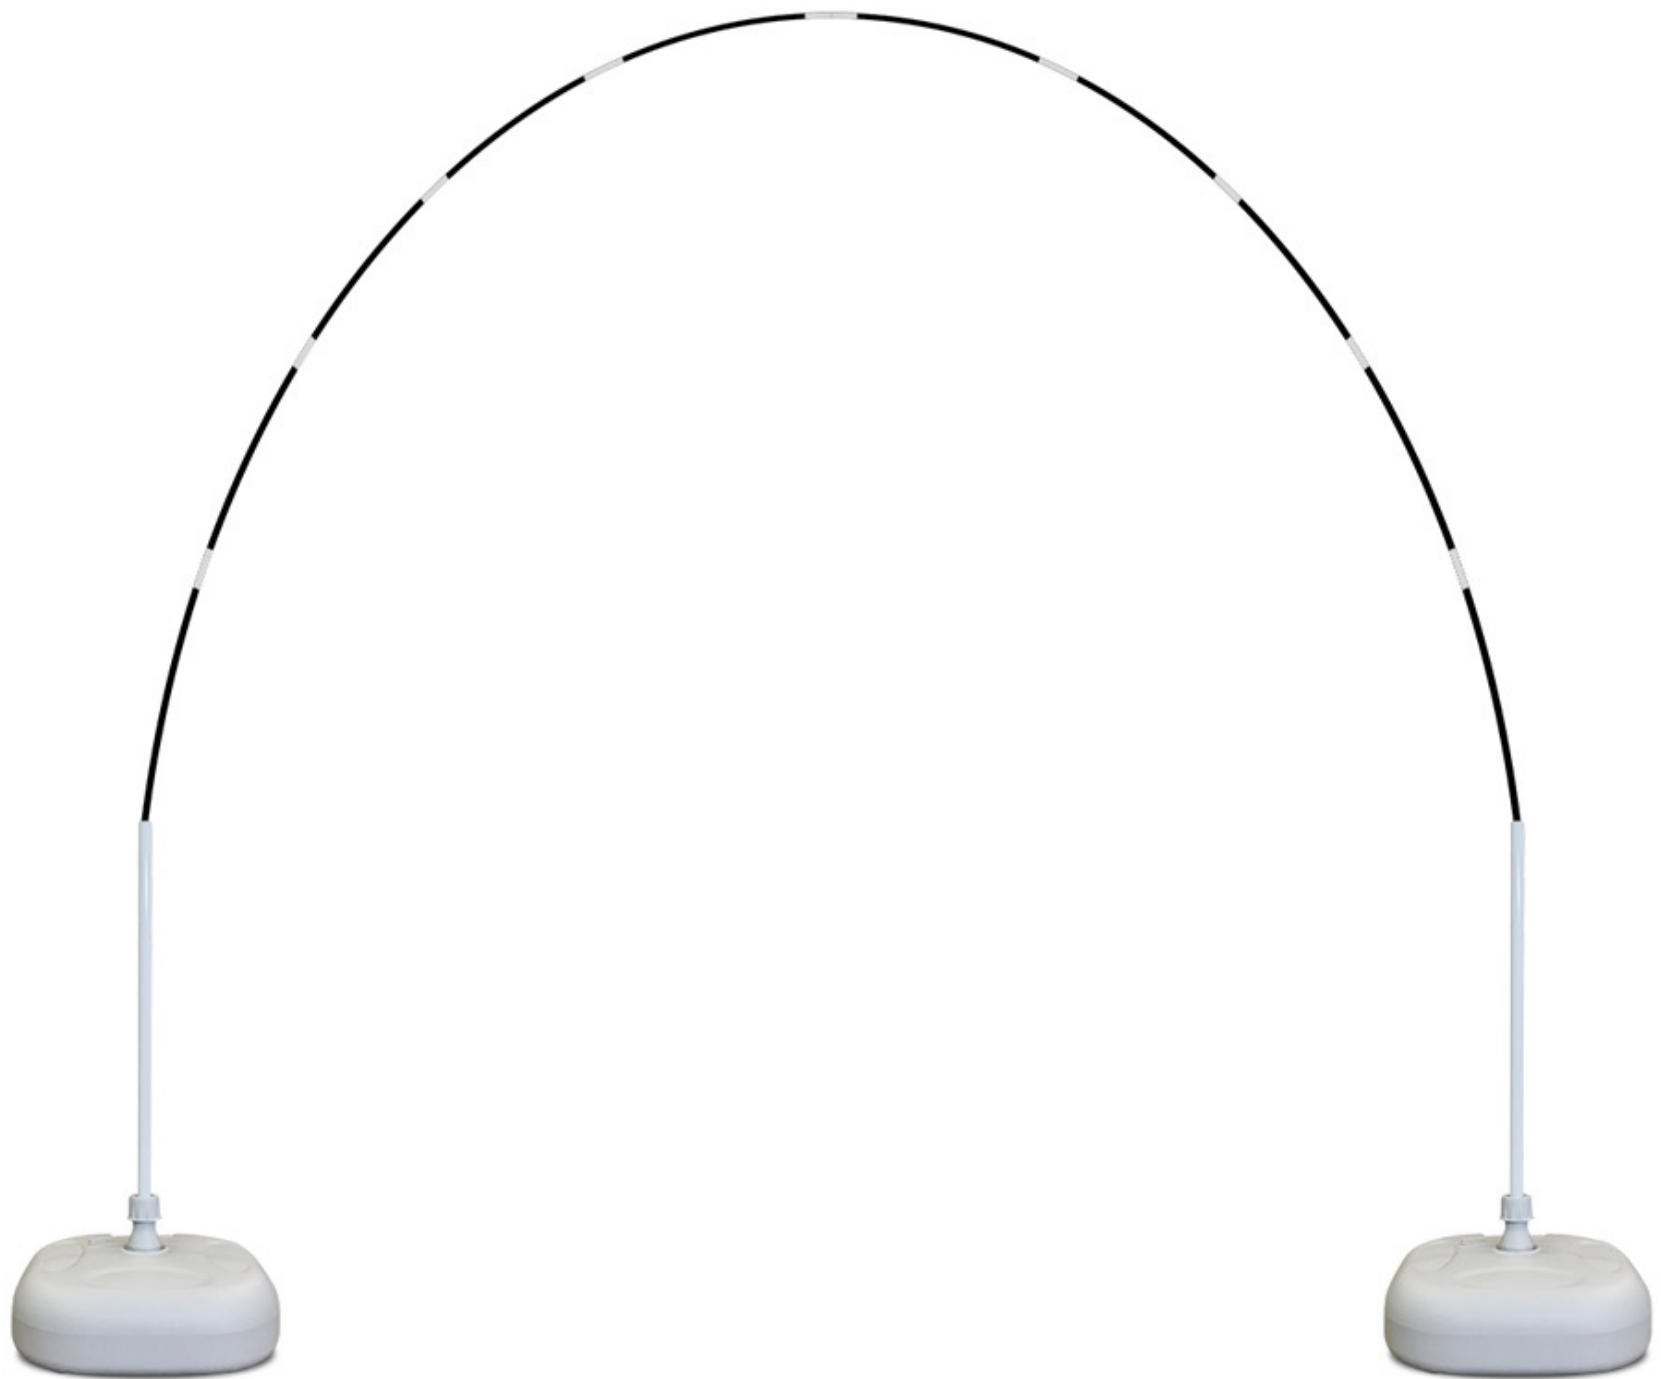

1 x Balloon pump

1x balloon size regulator

Step 1

Build arch frame

Height (p) + Width (J) = Approximate length (k)

$$P + J = K$$

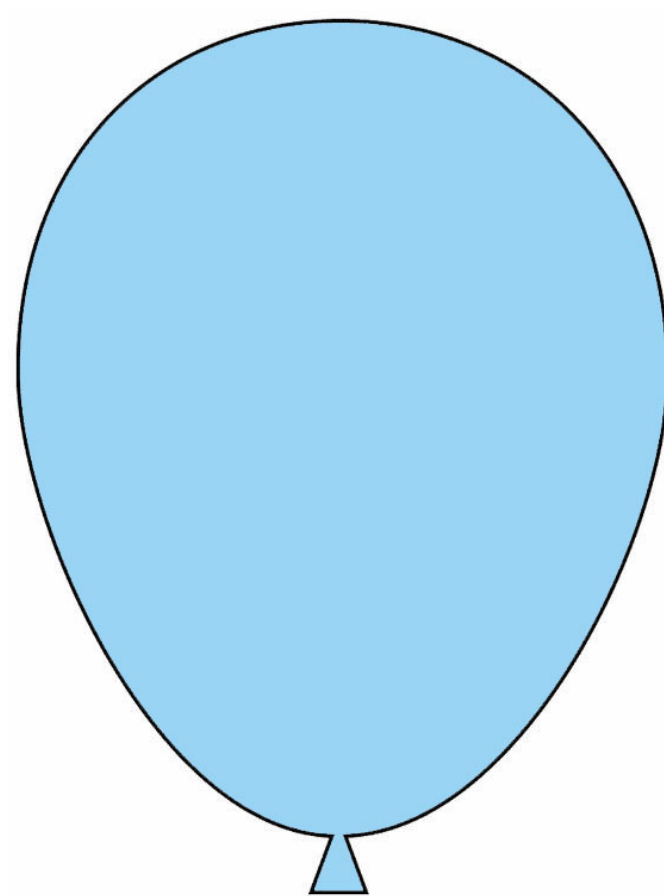

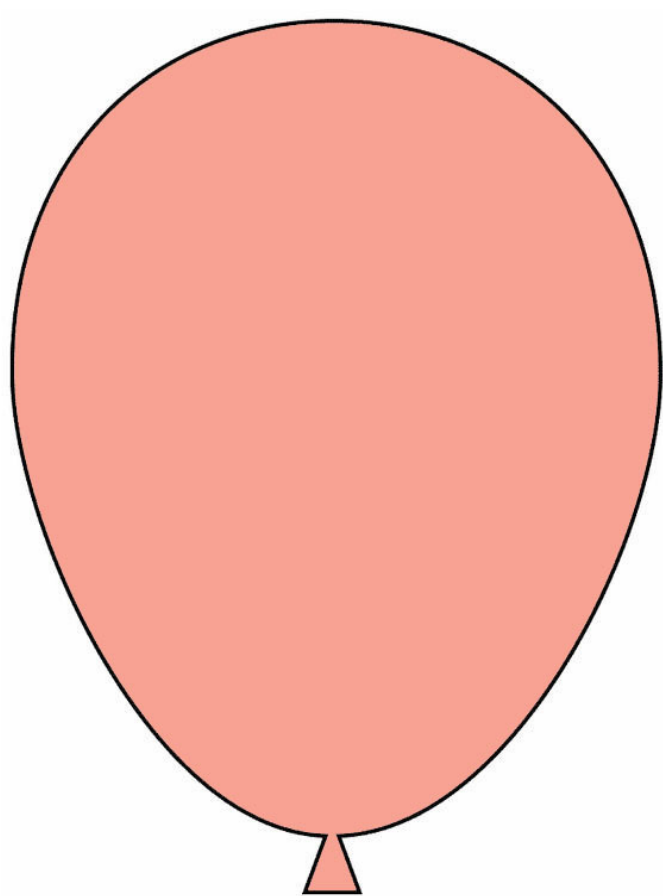

if $p = 2.7\text{m}$ (10 poles) + $J = 3.5\text{m}$. $K = 6.5\text{m}$

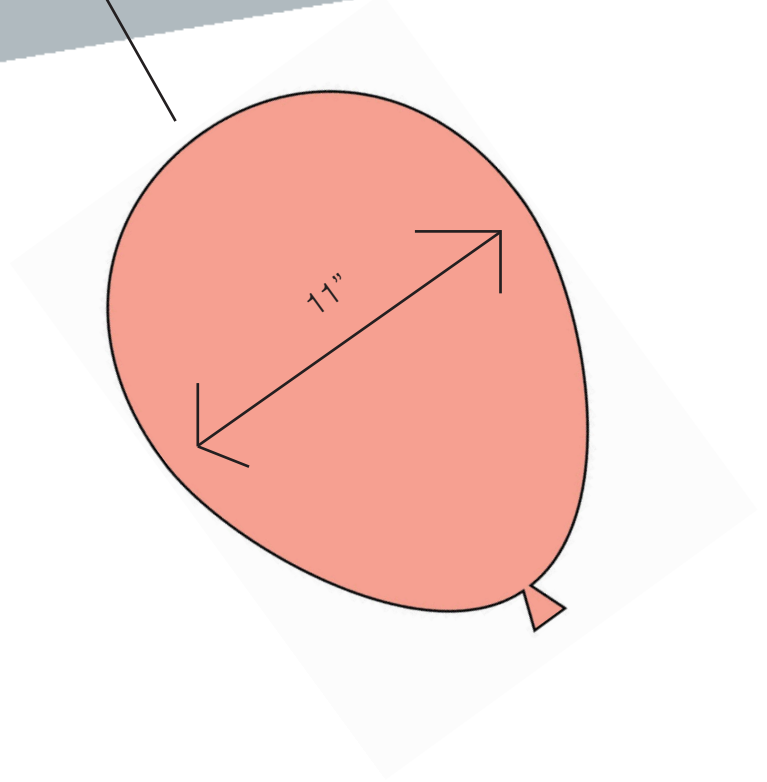

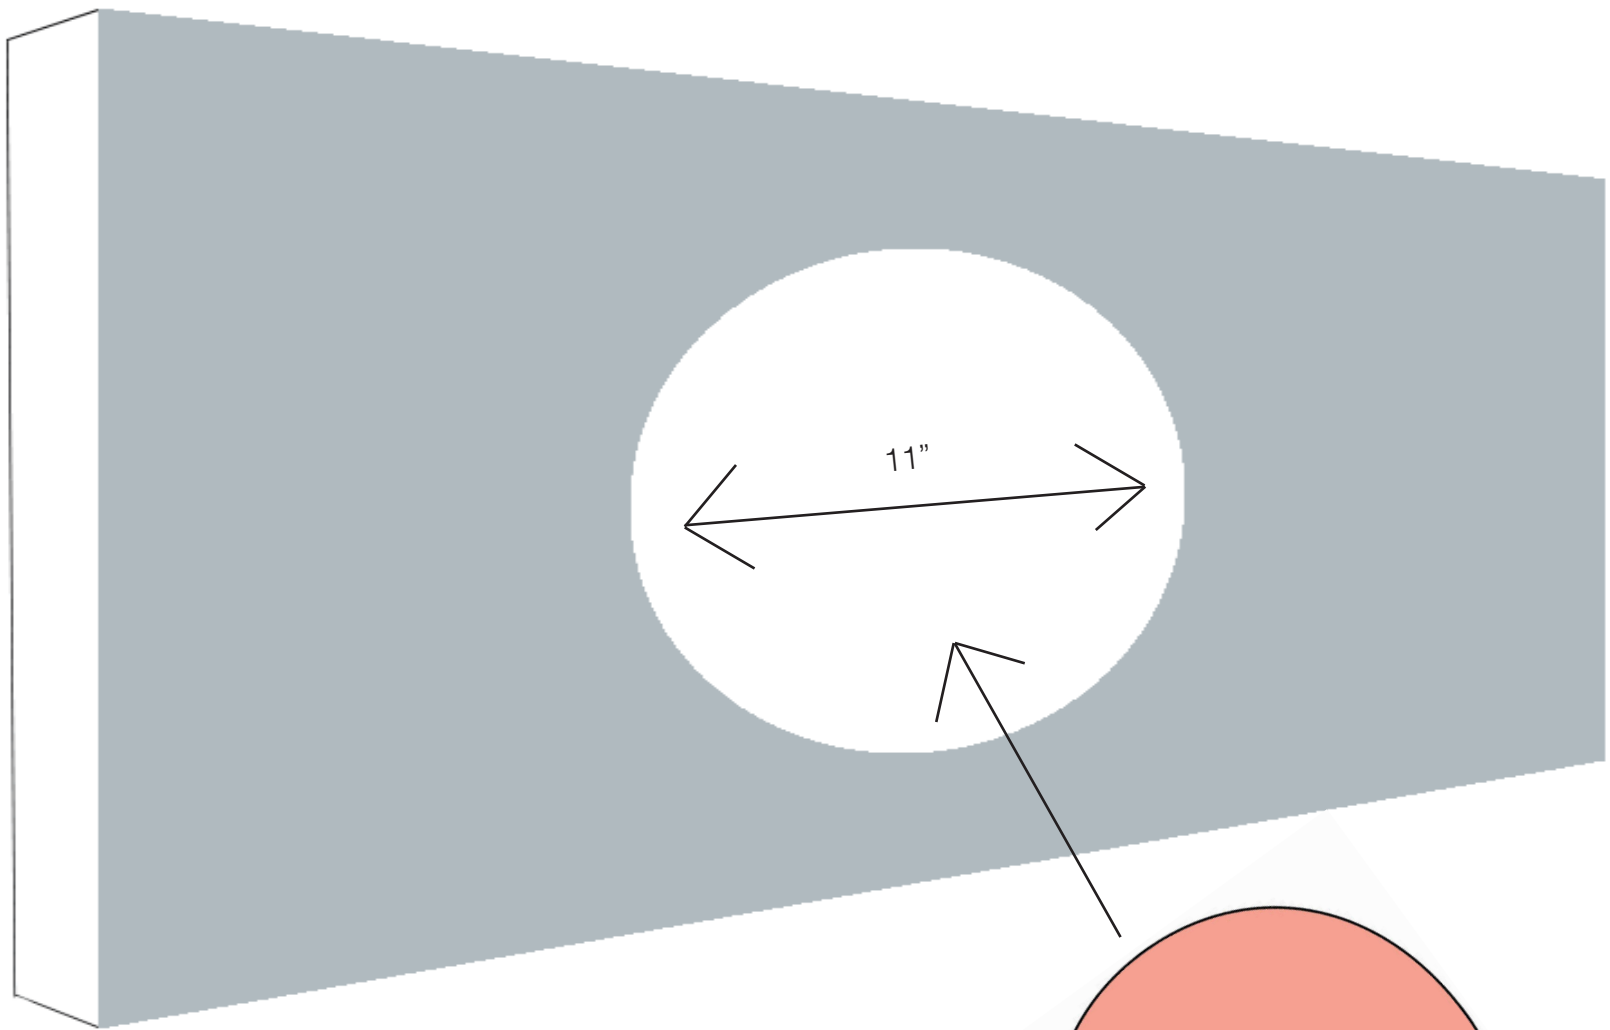

Please build size according to instructions supplied by the frame rental company (bigger the better)

Step 2

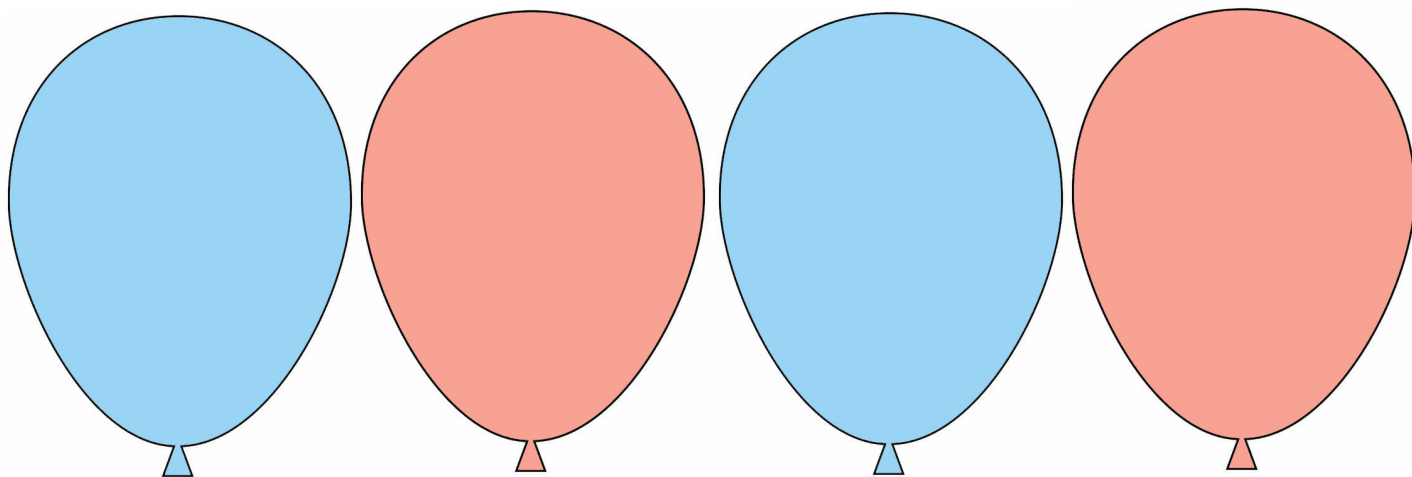

Pump up Balloons

(Arch should need 100 balloons, 50 Coral, 50 Blue)

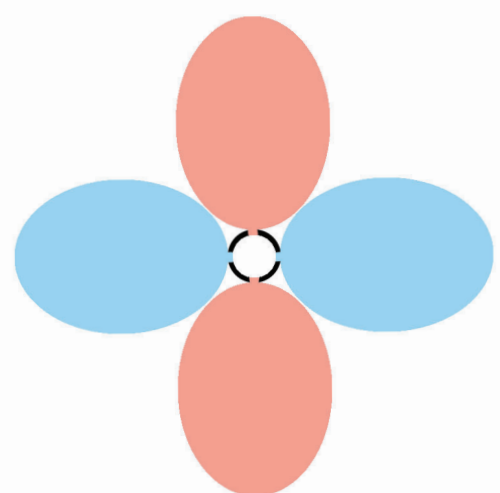

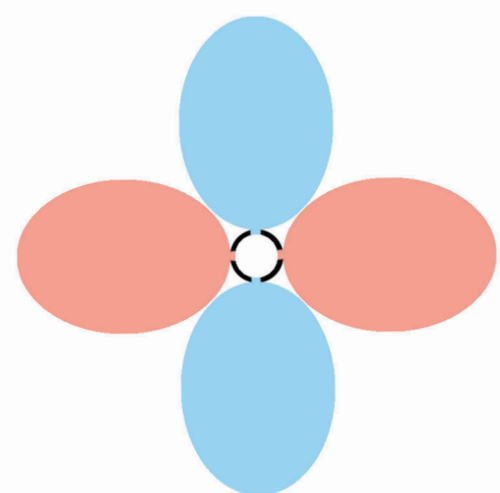

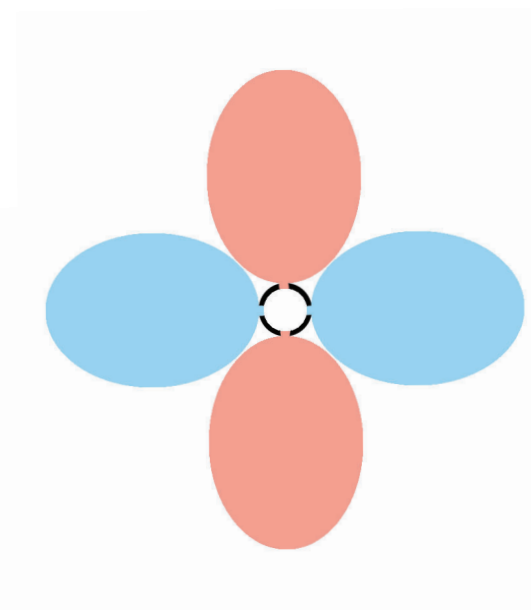

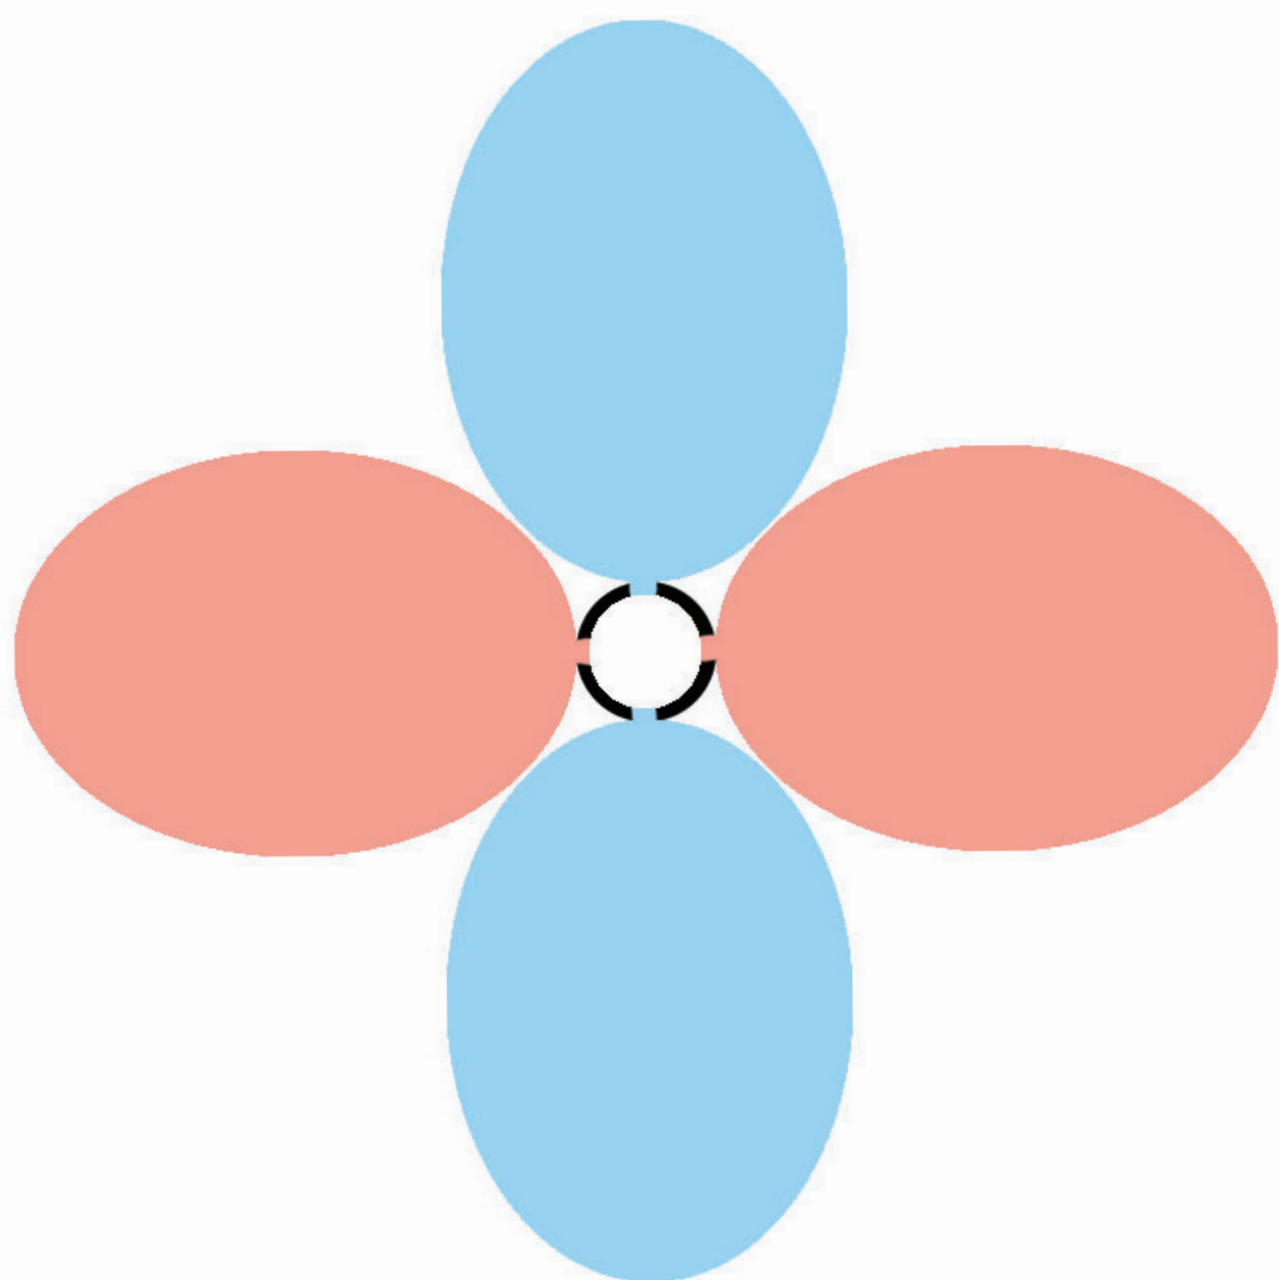

Push balloons through balloon size regulator to check they are all 11 inches wide.

Step 3

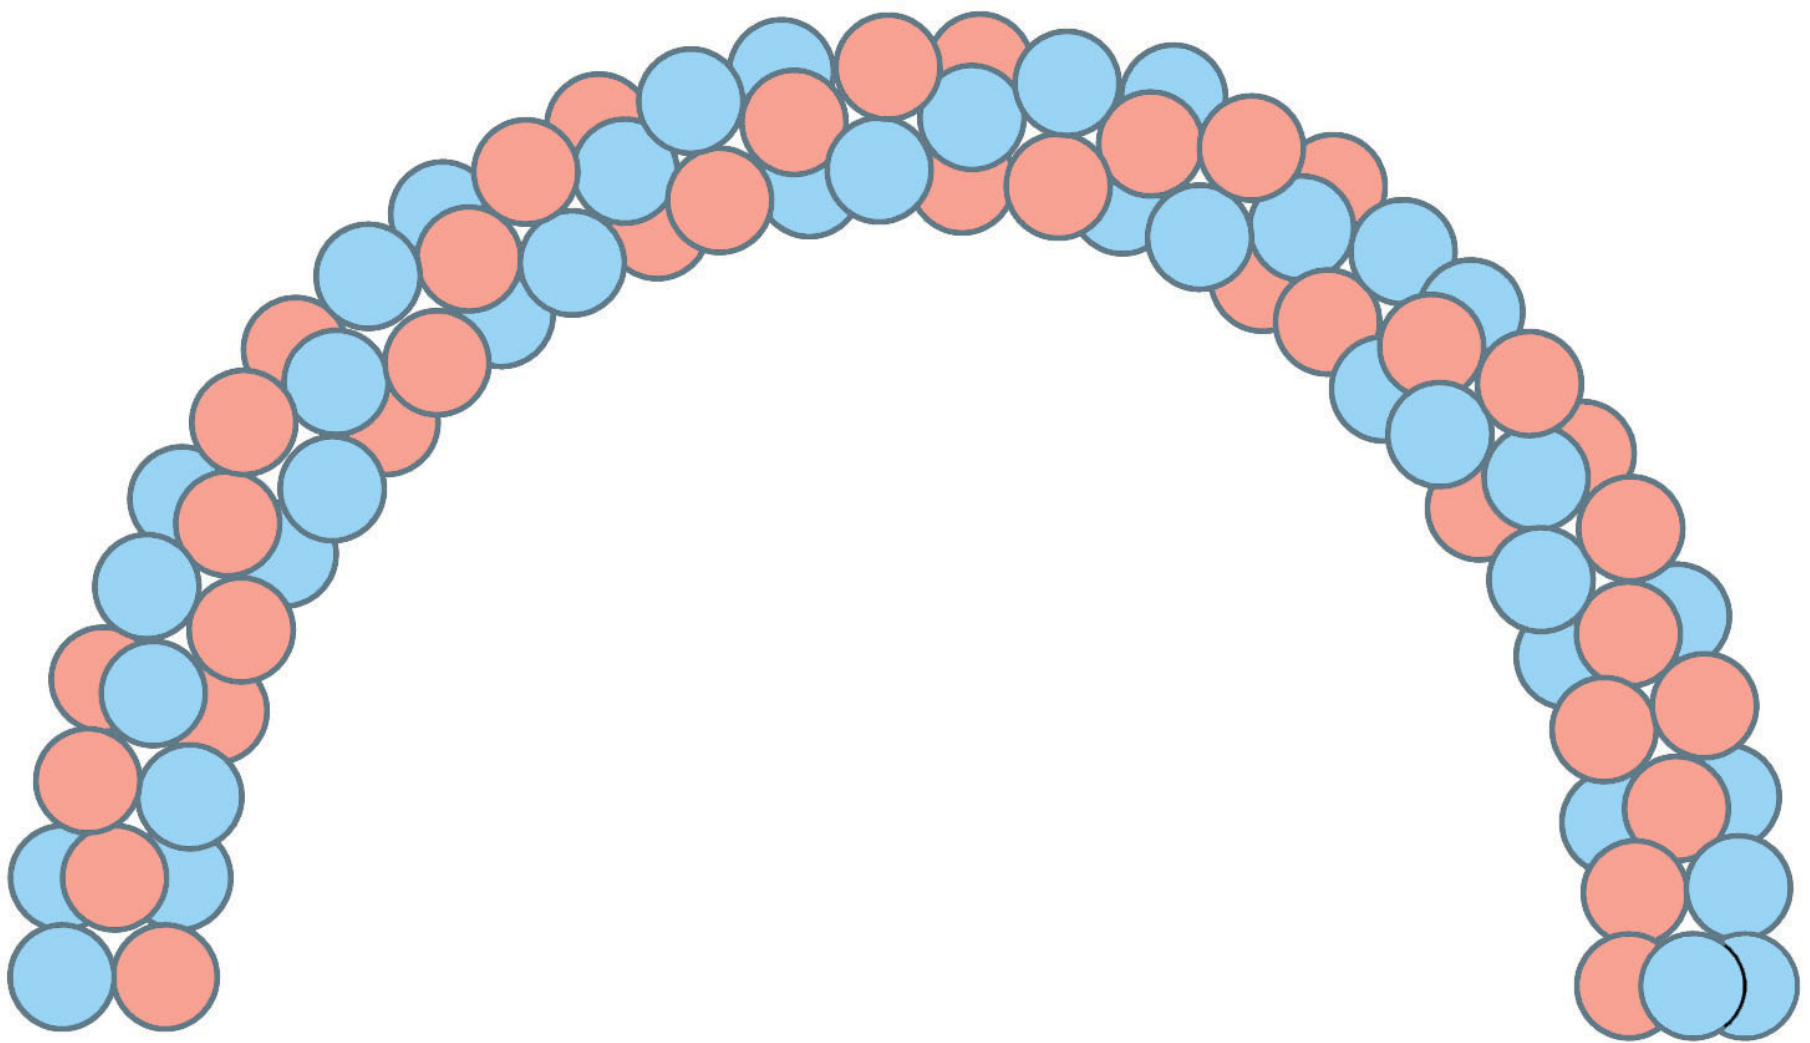

Attach balloons on balloon connectors

Pattern to follow when connecting balloons to balloon connectors

Step 4

Slide connectors with balloons attached onto the balloon arch frame in a spiral colour pattern

Step 5

Please refer to Youtube for further information.
